# ANKIT KUMAR YADAV

## Software Engineer

📞 9754147440  @ ay2000ankit@gmail.com  🔗 www.linkedin.com/in/ankittt14
📍 Jabalpur,Madhya Pradesh

## SUMMARY

Dynamic and motivated recent graduate with a Master's degree in Computer Science. Possesses strong analytical skills and a passion for learning and adapting to new technologies. Proven ability to collaborate effectively in team environments and deliver results under tight deadlines. Eager to leverage academic knowledge and practical experiences to contribute positively to a dynamic workplace. Seeking opportunities to grow professionally and make meaningful contributions to innovative projects in IT and Software field.

## EXPERIENCE

### Software Engineer Intern

**7eyeitsolutions**

📅 01/2024 - 03/2024    📍 Jabalpur, M.P

- During my internship as a Web Developer at 7 Eye IT Solution Jabalpur, I gained valuable hands-on experience in crafting responsive and interactive web solutions. Collaborating closely with senior developers and designers, I contributed to the development of dynamic web applications using modern technologies.

### Student Ambassador

**GeeksforGeeks**

📅 08/2023 - 04/2024    📍 Remote

- As a Campus Ambassador at GeeksforGeeks, I fostered engagement between the platform and my university community through organizing events, workshops, and seminars. I facilitated knowledge sharing by promoting GeeksforGeeks resources and encouraging participation in coding competitions. Through active communication and collaboration, I amplified the visibility of GeeksforGeeks on campus and contributed to its mission of empowering learners in the field of technology.

## EDUCATION

### Master in Computer Application

**Gyan Ganga College Of Technology**

📅 10/2022 - 06/2024    📍 Jabalpur, M.P

### Bachelor of Science in Computer Science

**St Aloysius College**

📅 07/2019 - 06/2022    📍 Jabalpur, M.P

## SKILLS

| JavaScript | React | Core Java | Git |

| WordPress | SQL | NodeJS | Express.js |

## PROJECTS

### Real Space

Developed a dynamic and user-friendly Real Estate Web Application utilizing React.js framework. Employed state management techniques for efficient data handling and utilized React Router for smooth navigation between pages. Implemented responsive design principles to ensure optimal performance across various devices. Collaborated with UX/UI design concepts and optimize user flow. Integrated authentication and authorization functionality to secure user data and enable personalized experience. Employed best practices in code optimization and performance tuning for fast load time and smooth interactions.

### Explore Madhya Pradesh Tourism

Designed and developed "Madhya Pradesh Tour-Packages and Tourism" project utilizing HTML, CSS, JavaScript, SQL, and PHP. Created an interactive platform facilitating users to explore various tourist destinations, browse customizable tour packages, and make reservations. Implemented SQL for database management, ensuring efficient data storage and retrieval. Utilized PHP for server-side scripting, enhancing website functionality and user experience. Integrated JavaScript for dynamic content and interactive features. This project showcases my proficiency in full-stack web development and ability to create practical solutions for real-world applications in the tourism sector.
